10190 Munro Road
Williamsburg, MI 49690

Dear Permittee:

SUBJECT: Expired Storm Water Permit

Our records indicate that you were issued a Storm Water discharge Certificate of Coverage under General Permit **MIS519000**, Permit No. **MIS510606** on **1/22/2003**, pursuant to Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451). That permit expired on **4/1/2005**. **Williamsburg Receiving and Storage LLC** has failed to reapply for discharge authorization. **Williamsburg Rec and Storage** located at **10190 Munro Road** was reminded of its obligation to submit a timely application in letters from the Department of Environmental Quality (DEQ) dated **September 21, 2004**, **December 3, 2004** and **January 18, 2005**. State law allows for the continuation of the discharge beyond the expiration date only if a timely application for reissuance has been received by the DEQ. Since the DEQ did not receive an application for reissuance of this permit prior to the expiration date, the permit is no longer in effect.

Please be advised that if the discharge has not ceased at **10190 Munro Road**, the facility is in violation of Section 3112(1) of Part 31 of Act 451. Continued violation of Part 31 of Act 451 may result in escalated enforcement actions against the facility or the current occupant for the illegal discharge. Pursuant to Section 3115 of Act 451, the owner or the current occupant may be subject to fines of up to \$25,000 per day of violation for discharging waste or waste effluent to waters of the state without a permit. In addition, a person who at the time of the violation knew, or should have known, that he or she discharged a substance contrary to Part 31 may be subject to criminal action under Section 3115(2) of Act 451.

If the discharge is continuing at **10190 Munro Road**, **Williamsburg Receiving and Storage LLC** must apply for a discharge authorization permit immediately. The application form is available electronically through www.michigan.gov/deq or can be obtained by contacting the number below.

If the storm water discharges associated with industrial activity from **Williamsburg Receiving & Storage** have been eliminated, please submit a No Exposure Certification (NEC) to the DEQ within 30 days. The NEC may be located at:
http://www.deq.state.mi.us/documents/deq-water-npdes-stormwater-No_Exposure_Certification.doc.

If you have any questions or comments regarding this letter, please contact Sy Paulik with the Cadillac District Office at 231-775-3960 ext. 6367.

Sincerely,

Daniel Dell
